

## Description

Chemical Business NewsBase contains facts, figures, news, views, and comments on the chemical industry and its allied end-use sectors worldwide. Coverage extends to end-use sectors for chemicals including agrochemicals, pharmaceuticals, paints, textiles, and plastics. Also included are market statistics, product news, company information, financial results, mergers and acquisitions, investments, joint ventures, plant capacities, pricing trends and licensing agreements as well as legal and environmental issues, new technologies, and materials.

Over 700 sources are covered, including technical and trade journals, newspapers, company literature, advertisements, market research report alerts, stockbroker reports, books, and directories. CBNB's coverage of advertisements, annual and interim company reports, company newsletters and press releases, in combination with journals and newspapers, is unique.

Much of the source material is originally in languages other than English. For example, articles translated from French or German along with the English articles provides the most reliable first-hand information for events around the world.

## LIMIT OPTIONS

Limit options are quick and easy ways of searching certain common concepts. A check box is available for:

### Abstract included

Short lists of choices are available for:

### Document type, Language

**Date limiters** are available in which you can select single dates or ranges for **date of publication**.

## BROWSE FIELDS

You can browse the contents of certain fields by using Look Up lists. These are particularly useful to validate spellings or the presence of specific data. Terms found in the course of browsing may be selected and automatically added to the Advanced Search form. Look Up lists are available in the fields drop-down on the Advanced Search page for:

### Publication title, Subject

## “NARROW RESULTS BY” LIMITERS

When results of a search are presented, the results display is accompanied by a list of “Narrow results by” options shown on the right-hand panel. Click on any of these options and you will see a ranked list showing the most frequently occurring terms in your results. Click on the term to apply it to (“narrow”) your search results. “Narrow results by” limiters in Chemical Business NewsBase include:

**Classification, Document type, Language, Publication title, Subject, and Publication date.**

## LOOK UP CITATION

If you need to trace a particular bibliographic reference, use the Look Up Citation feature. Find a link to this toward the top left of the Advanced Search page, or in the drop list under Advanced on any search form; click this and you will go to a form where you can enter any known details of the citation, including document title, author, journal name, volume, issue, page, publication date, ISSN.
