## LIMIT OPTIONS

Limit options are quick and easy ways of searching certain common concepts. A check box is available for

**Full text** (Useful for cross file searching; this database contains all full text records.)

A short list of choices is available for

**Document type** (select Article or Feature)

**Date limiters** are available in which you can select single dates or date ranges for date of **publication**.

## BROWSE FIELDS

You can browse the contents of certain fields by using Look Up lists. These are particularly useful to validate spellings or the presence of specific data. Terms found in the course of browsing may be selected and automatically added to the Advanced Search form. Look Up lists are for:

**Publication Title** (from the Advanced Search screen fields drop-down and the Look Up Citation feature)

**Author** (from the Look Up Citation feature)

## "NARROW RESULTS BY" LIMITERS

When results of a search are presented, the results display is accompanied by a list of “Narrow Results by” options shown on the right-hand panel. Click on any of these options and you will see a ranked list showing the most frequently occurring terms in your results. Click on the term to apply it to (“narrow”) your search results. Narrow Results by Limiters in Pharmaceutical and Healthcare News Database include:

**Publication title and Publication date**

***LOOK UP CITATION***

If you need to trace a particular bibliographic reference, use the Look Up Citation feature. Find a link to this towards the top left-hand corner of the Advanced Search page; click this and you will go to a form where you can enter any known details of the citation, including document title, author, journal name, volume, issue, page, publication date, ISSN.
